This course is for those interested in traditional medicine concepts to assess conditions and predict healing outcomes of specific therapeutic interventions by objective measurement.

Traditional Medicine systems (Chinese Acupuncture, Ayurveda, etc.) focus on bioenergy as a method of assessment and recommendation for treatment. This is traditionally assessed by the pulse with three fingers below the wrist. Such assessments with fingers have attracted researchers to examine bio-meridian communications in the form of bioenergy. About 80 years of research in Russia and Germany brings a highly user-friendly device called Bio-well to assess this bioenergy and correlate it with communication of conventional organ systems.

Traditional concepts of healing measure effectiveness of intervention based on desirable changes in the bioenergy communication. This course teaches the measurement of bioenergy with Bio-well as well as demonstrates it use for measuring impact of intervention with some non-invasive techniques, especially yoga (inclusive of meditation) techniques. Recent advances in measurement of Bioenergy for therapeutic use with use of Bio-well suggests that it is not the volume of energy in communication of organ systems that matter, but rather the quality of communication energy that is measured by drop in entropy following the therapeutic interventions to predict healing potential of the intervention.

Topics and Schedule (subject to minor changes) from 9 am to 6 pm

- Concept of Naadis in Traditional Medicine Systems and Yoga, and Measurement of Bioenergy
- History of Development, its scientific principles and workings
- Healing Process
- Demonstrating key yoga practices for targeted non-invasive intervention
- Energy of Water and Space
- Application of Bio-well for non-yoga therapies

Course Faculty: Konstantin Korotkov, PhD; C. Rajan Narayanan, PhD

Konstantin Korotkov, PhD, Professor, Department of Innovation Technologies, Research Institute of Physical Culture and Sport, St. Petersburg, Russia. He has published over 200 papers in leading Russian and international journals on physics and biology, and he holds 12 patents on biophysics inventions. He is the author of 9 books, published in Russian, English, Italian, German, Spanish, Dr. Korotkov is a President of the Union of Medical and Applied Bioelectrography.

C. Rajan Narayanan, Ph.D., C-IAYT, Executive Director, Life in Yoga Institute and Foundation. He is a founder and inspiration behind Life in Yoga Foundation & Institute, non-profits in the Washington metro area. He was the visionary behind getting Continuing Medical Education (CME) accreditation for Life in Yoga and serves as its CME Director, and has established yoga therapy clinics in Maryland and Texas. He developed measurability with Electro-Photonic Imaging, which is now part of Life in Yoga’s practice method called Measured Yoga Therapy.

FEES (Check boxes below and calculate)

- COURSE FEE
- $325 (before March 31) $ __________
- $375 (Apr 1-6) $ __________

- TEXT BOOK ORDER The Energy of Health. (Amazon.com)
- Add $50 $ __________

- CREDIT FOR PAYMENT BY CHECK
- Subtract $10 $ __________

(Mail check to Life in Yoga Institute, 1111 University Blvd, #1306, Silver Spring, MD 20902) TOTAL PAYMENT:$ __________

Name, Email, Address: ____________________________

REFUND POLICY: Until 30 days before the beginning of the course, there is refund of the COURSE FEE, except for a refund processing fee of $45. After that there will be no refunds of the Course Fee - Substitution by another participant will be allowed.

CANCELLATION POLICY: If Life in Yoga cancels the course for any reason, weather or otherwise, fee will be fully refunded.

PARKING – Free at the Clarksburg Medical Center; LODGING in hotels in the Germantown area range from $80 to $150 per night.
